REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art neither discloses nor suggests, in combination with the other limitations of claim 1, a heating muffle comprising a hollow unit for the "uptake" of a workpiece, i.e., received through its bottom, with a pedestal forming a firing chamber which is heated by its walls, and a spiral tube containing a heat conductor for transferring heat to the workpiece and minimizing temperature gradients in the chamber. The Examiner notes that this is distinct from the heating/cooling chamber US Pat. 2765361, for example, which has thermally conductive water in spiral tubes only during a cooling cycle, when heat is transferred *from* the workpiece.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph M. Pelham whose telephone number is 571-272-4786. The examiner can normally be reached on M-F 8:30 AM to 5:00 PM.
